How do I join my IP Address to a Minecraft Server? – To connect to a Minecraft server, you will need an IP address or host name of the server.

Connecting your Minecraft server via your IP address is the same as connecting to it directly through the internet without requiring any extra software. The primary way to get an IP address is by going into your internet browser's settings page and finding out what the current addresses given from your provider are for you. If you are using a Bukkit or Tekkit server, then this should be included with their connection instructions. With individual servers, there are a couple ways that you could go about getting this information. The first way would be to simply ask the host if you can connect to their IP address and they will give it to you. Otherwise, you can go through your router configuration page to find out the information that you need.",

Resource packs are not used for changing the blocks in your world, but they do change the sounds, textures, and everything else except for the blocks themselves. You can use resource packs without having to install any Minecraft mods! Furnishing and Decorating Mod: This kind of mod is used for changing the textures for the furniture that you can craft. You can add them, subtract them, and change the look of all of your house items so that it looks unique. In order to make this mod work you must have some sort of texture pack installed.",

Most weapons can be crafted using a combination of two items from the metal and wood category. For example, a pickaxe is constructed from a stone pickaxe and a piece of metal, and is more powerful than both types of weapons combined. It has an increased durability when compared to stone or metal alone but it also takes longer to craft as well as requiring more resources than either a stone or metal item would by themselves.",
